EXPERIENCE

Full Stack Developer

2020-Present

Fierro Tech, LLC

Seattle, WA

The sole developer for a small IT company creating applications to streamline processes within client businesses. Responsible for managing projects, effective communication with clients and utilizing new resources to solve problems and exceed project goals. Welcomed additional responsibilities outside of initial scope to be an asset to the company.

- Developed employee onboarding applications
- Responsible for updating and modifying client websites
- SME and client trainer for Microsoft products/software
- Created reusable PowerBI template to quickly analyze clients' financial data

PROJECTS

Pawsitivity || <https://pawsitivity-atack.herokuapp.com>

Full Stack Developer, Project Manager

- A mobile application to swipe through real-time adoptable pets based upon a user's location, preferences and environment. Sign up as a shelter to list pets and contact adopters. Created with ReactJS/JSX, CSS3, JavaScript, Node, MySql, Axios, and API.
- Contributions: styled, connected the back end routes to front for UI, integrated Maps and won "Best Presentation".

WineKey || <https://fv-winekey.herokuapp.com/>

Front End Developer, Project Manager

- Commissioned for use by Fire&Vine Hospitality, an application to assist management with wine inventory and intercompany trading. Created with HTML5, CSS3, JavaScript, Node, MySql, Express, Handlebars.js and JQuery.
- Contributions: connected the back end to front end for UI, designed 90% of the site and won "Best Presentation".
